JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

The general health of Veracruz during the week has been fairly good, one case of smallpox being the only contagious disease reported. No serious sickness occurred on vessels in the harbor.

Strenuous efforts are being made by the sanitary service to keep the city in a good condition. There is not much increase in the number of mosquitoes, and the vessels in the harbor all report an entire absence of mosquitoes.

#### NICARAGUA.

*Report from Bluefields, fruit port—Stegomyia calopus numerous.*

Acting Assistant Surgeon Layton reports:

Week ended August 26. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week, good. Mosquitoes are abundant, *Stegomyia calopus* being especially numerous.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Aug. 22	Marietta Di Georgio .....	New Orleans via Cape Gracias a Dios, Nicaragua.	19	7	.....

Temperatures of all on board above-named vessel taken day of sailing.

#### PERU.

*Reports from Callao—Inspection of vessels—Plague in Iquique, Chile.*

Acting Assistant Surgeon Gutierrez reports, August 16 and 25:

Week ended August 14. Two steamships, with an aggregate personnel of 139 crew, 50 cabin and 67 steerage passengers, were dispatched. No new cases of plague have occurred at Callao.

Bills of health report plague in Chile as follows: Iquique, August 10, 6 cases in the lazaretto; 1 case during the past 2 weeks.

Week ended August 21. Four vessels fumigated, having an aggregate personnel of 167 members of crews, 98 cabin and 6 steerage passengers.

The following is the last report on plague in Peru received from the service of public health:
